

REMARKS

Applicants have amended claim 1 and 2 to address preamble problems.

Claims 1-12 stand rejected under 35 U.S.C. § 112, first paragraph as indefinite.

Specifically, the examiner indicates that it is unclear as to whether the receiver and presorter elements set forth in the preamble are being claimed.

As set forth in the amended claims, applicants are claiming a pulse descriptor word collector that is integrated into a surveillance system between the receiver and presorter (these elements are already present in electronic surveillance systems). Therefore, these elements are being claimed, but only to the extent necessary to identify the physical location of the pulse descriptor word collector within the surveillance system and the type of interaction between the pulse descriptor word collector with these elements. Hopefully, this clarifies the intent of the claims sufficiently to overcome the above referenced rejection.

Applicants have also amended the claims to address faulty/inconsistent preamble language used in the claims. This issue was identified and discussed with the examiner via telephone and it was agreed that such amendments would be appropriate at this stage of prosecution.

PATENT

Navy Case No. 84,537
Application No. 10/774,643

Accordingly, applicant believes that claims 1-12 are in condition for allowance and respectfully requests the examiner to withdraw all objections and rejections and allow said claims. Should the examiner need more information regarding this matter or have further suggestions regarding this application, feel free to call the undersigned at 401-832-6679.

Respectfully submitted,

Art. Unit: 3662

1. Claims 11-12 are allowable over the prior art of record.
2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In independent claim 1 as newly-amended, the newly-added language on lines 8-12 is indefinite and unclear in context in that it relates to the "receiver" and "presorter," which are only recited in the preamble of the claim. The claim must be made clear as to whether the "receiver" and "presorter" are claimed or not.

Dependent claims 2-10 are unclear in that they depend from unclear independent claim 1.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
